# Condensed interim financial information for the nine months ended September 30, 2022

# DIRECTORS' REVIEW REPORT TO THE SHAREHOLDERS

The Directors of Nestlé Pakistan Limited (the "Company") are pleased to submit the half-year report along with the condensed interim financial statements of the Company for the nine-month period ended September 30, 2022.

# **Business Performance Review:**

During this period, the Company recorded revenue of PKR 121 billion, an increase of 20.5% compared to the same period of last year benefiting from the normalization of economic activities. The growth was supported by strong demand generation activities and new product launches. It was further complemented by a favorable portfolio mix and pricing management initiatives. Operating profit improved, as a result of sales growth, favorable product mix and tighter control on fixed costs.

The financial performance for the nine-month period is summarized below:

	Jan – Sep 2022 PKR Million	Jan – Sep 2021 PKR Million	Change
Sales	120,978	100,359	+20.5%

### **Future Outlook:**

The economy of Pakistan, like rest of the world, is passing through a turbulent time. The sharp increase in energy and commodity prices, along with devaluation of Pakistani Rupee, has resulted in continued inflation; a trend that is predicted to continue in the foreseeable future. The recent devastating floods in Pakistan also add profound risk to the country's economic outlook. All of these factors are putting tremendous pressure on the disposable income of consumers and might have an adverse impact on consumption. The management of the company is fully cognizant of the situation and is taking measures deemed necessary to manage these challenges. We will continue to delight consumers with quality products and remain cautiously optimistic about the future.

For and on behalf of the Board of Directors
